Date: Monday, December 15, 2014 9:28:57 AM

Good morning Adly,

The cyanide samples should have a separate CLP number. Please request the lab to use BBSY1 for the cyanide sample. I will inform the sample to use different sample ID numbers.

Thank you,

Vanessa

Subject: FW: Case 44943- Rolling Knolls Sample Shipment 12/10/2014 Revised COCs

Good morning Vanessa,

Please see the issue reported below, and confirm what is listed in The COC, or provide any information otherwise. Additionally, please advise the field sampler that TM and DM should be assigned different sample ID numbers.

If you have any questions, please let me know.

Thanks.

Adly Michael

Adly,

This is Kerrie, Alexandra is out of the office this afternoon.

The attached COC appears to indicate that sample MBBTR4 is a filtered water sample for Metals/Mercury, but an unfiltered sample for Cyanide. One sample cannot be associated to two different matrices like this. Please confirm that I have interpreted the COC correctly, and advise if it is acceptable for SMO to provide another sample ID for the unfiltered, Cyanide portion of this sample.

Please let me know if you have any questions.

Thanks,

Kerrie for

Tonya,

Please provide correct and signed, as relinquished by, COCs to forward them to the laboratory. We cannot forward COCs without signature.

Thanks.

Hi Adly,

Please advise if the Region would like the updated COCs provided to the laboratory.

Please let me know if you have any questions.

Thanks,
